

HYDRAULICALLY DRIVEN KZN AGITATOR SLURRY PUMPS

We are pleased to announce BJM KZN submersible agitator slurry pumps are available powered by a hydraulic motor.

Hydraulically driven pumps

- are ***intrinsically safe*** in hazardous environments where explosion proof electric motor enclosures are required.
- ***speed can be varied*** for higher heads and flows or lowered to snore.
- ***can run dry*** without the risk of motor overheating and can be stalled without serious damage to the pump.

Models	Discharge	Max Flow	Max Head
KZN-HYD3	3"	460 GPM	85 FT
KZN-HYD4	4"	730	100
KZN-HYD6	6"	1240	134

KZNR Hi-Hard severe duty slurry pumps are also available hydraulically driven.

KZN-HYD pumps can be driven by any open center hydraulic system.
