

# Explosion Proof Submersible Shredder Pumps

**XP-SK & XP-SKX Series**

# XP-SK and XP-SKX Explosion Proof Shredder Pumps

The XP-SK and XP-SKX pumps meet NFPA (70), NEC and OSHA requirements for Class I, Division 1, Groups C & D hazardous locations (temp. code T4). BJM's tungsten carbide tip impeller rips solids apart with 360° shredding action for easier passage and virtually no clogs. Appropriate applications include chemical plants, municipal wastewater, manure washdown, leachate, distilleries and spirits bottling installation.

## Features

- XP-SK offers a ductile iron impeller and wear plate with cast iron volute
- XP-SKX Series constructed of cast 316 stainless steel
- FM-approved explosion proof motor for use in Class I, Division 1, Groups C & D hazardous locations
- Oil-lubricated, double mechanical seal design featuring early warning seal failure protection circuit to ensure the longest pump and motor life
- Superior motor protection with NEMA Class F winding insulation and thermal sensor switches embedded in motor windings to provide both thermal and over amperage motor protection
- Durable, hardened cast iron construction to handle pumping sandy water and operating in harsh construction environments
