

THE RIGHT PUMP FOR  
TOUGH JOBS

HYD SERIES

HYDRAULICALLY DRIVEN KZN AGITATOR  
SLURRY PUMPS

Hydraulically driven pumps

- are *intrinsically safe* in hazardous environments where explosion proof electric motor enclosures are required.
- *speed can be varied* for higher heads and flows or lowered to snore.
- *can run dry* without the risk of motor overheating and can be stalled without serious damage to the pump.

---

Models	Discharge	Max Flow	Max Head
KZN-HYD3	3"	460 GPM	85 FT
KZN-HYD4	4"	730	100
KZN-HYD6	6"	1240	134

---

KZN-HYD pumps can be driven by any open center hydraulic system.

KZNR Hi-Hard severe duty slurry pumps are also available hydraulically driven.
